

# MULTI WASTE®

Automatic aspiration and filtration  
with waste compression

## AUTOMATIC CLEANING = HIGHER PRODUCTION

Reduces machine  
shutdown due  
to sackers clogging

External installation made  
possible by mass-produced  
isolated panels

## Indestructible

Reinforced structure to resist high  
vacuum

## Safe

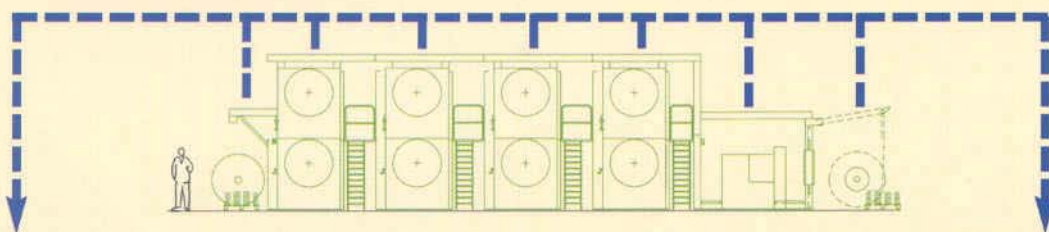

Failure prevention  
sensors and alarms

## Reduces installation cost and time

Completely pre-assembled

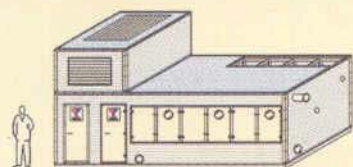

# MORE SPACE TO PRODUCTION

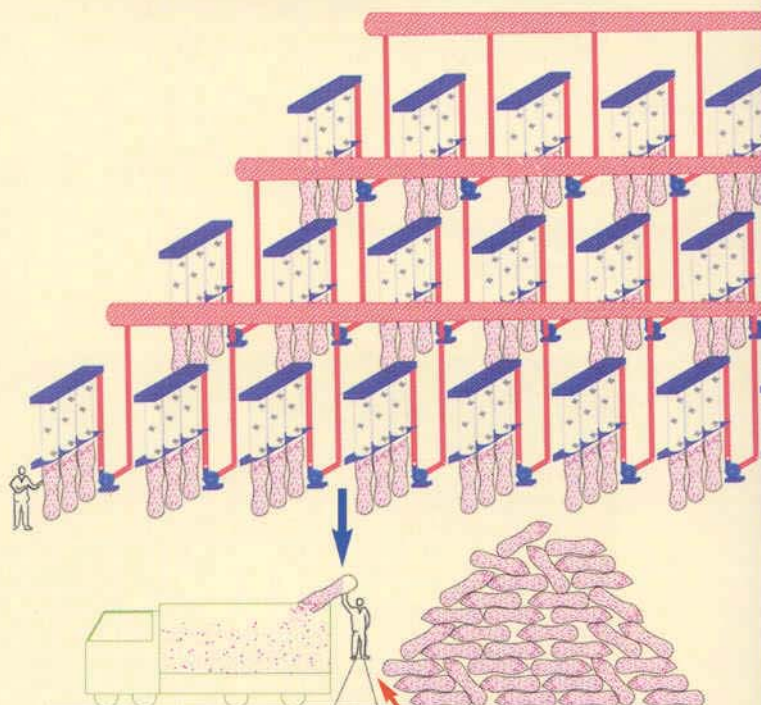

**TODAY** 1 Multi Waste 75

**YESTERDAY** 110 Sackers

**CUTS  
DOWN WASTE  
DISPOSAL  
COSTS**

Reduces the waste volume by 30%  
by the fibre compressor  
and up to 70% by the briquetting  
machine (optional)

**MAINTENANCE  
SAVING**

No personnel required  
to change and empty sacks

Self-cleaning filter with high  
vacuum-operated openings

Interchangeable  
external baffle

Fibre compressor  
**Easy to use**
